

*RELOAD tools help the education community engage with and utilise the learning technology specifications from IMS and ADL*

Tools available:

- IMS Content Packager
- IMS Metadata Editor
- ADL SCORM 1.2 Player
- IMS Learning Design (*soon*)

**RELOAD** Tools are:

- Free & Open Source
- Cross-Platform, in Java
- Being extended worldwide
- A Reference Implementation

*"Fantastic tool, installed no problem and works great.  
Will save us loads of time wrapping our content."*

Keith Tsang, Technical Developer, fuel IT Ltd, London

*RELOAD tools are the crucial "missing link" which allows users to author and transfer learning objects, in specification compliant format, between authoring and design tools, local and distributed digital repositories, and VLEs.*
